Preface

It is proud moment for us as we present the proceedings of International conference on 'Soft Computing Applications in Wireless Communication' (SCAWC-17). The response received to the conference has been overwhelming. In all, around 187 papers have been submitted. The conference has finally accepted and registered 77 high quality research papers after tough and rigorous peer reviewing process conducted by reviewers affiliated to industry, academic institutions and research organization across the globe. We take this opportunity to take all the author and delegates for enriching the conference with their valuable research experience. We will feel greatly rewarded and hope that the contents of this conference fulfill its objectives of updated knowledge in the field of applications of Soft Computing Applications in Wireless Communication.

We thank IDES Team for their cooperation and support. We also thank all the faculty and students of ECE department for their cooperation and support. We wish the participants a great success.

Dr. Sandeep Singh Gill (Guru Nanak Dev Engineering College, India)
Dr. Munish Rattan (Guru Nanak Dev Engineering College, India)
Dr. Baljeet Kaur (Guru Nanak Dev Engineering College, India)
