

Table of Contents

1. Leaf Illness Prediction for Smart Agriculture <i>Krishna Sree V, Lokesh Chary K, Alekhya Golla, Preethika Reddy Karra and Srivani Ch</i>	1-6
2. Online Fake Review Detection based on Multiple Feature using Machine Learning Technique <i>Milind Mahajan, Vaishnavi Kulkarni, Aniket Nimbalkar, Abhishek Thombare and Saurabh Lagad</i>	7-11
3. Application for Data Visualization and Algorithm Simulation <i>Kavita R Singh, Grace Lal, Anushree Ninave, Vinaya Wahekar and Devang Deshpande</i>	12-16
4. Effect of Incorporation of Various Chemicals in Self - Healing Property of Mortar <i>Sonal Thakkar, Parth Patel, Meet Shah, Nishant Lia and Tejas Joshi</i>	17-23
5. Traffic Violation using Distance Estimation and CNN <i>Nakul R S, Neil, Shailesh Kumar Sharma and Praveena T</i>	24-29
6. Denoising of Natural Images using Modified VISUShrink on Shearlet Transform <i>Anish Babu K K, Jiji K S and Nelson K J</i>	30-35
7. Cost and Energy-Efficient Digital Code Lock for Smart Homes using Seven-Segment Displays in Verilog HDL <i>Pragati Agrawal and Shobha Sharma</i>	36-41
8. Cost Effective Analysis of a Stand-Alone Distributed Generation and Grid Connected Generation System <i>Saurabh Awasthi and Gagan Singh</i>	42-49
9. A Study of Approximate Arithmetic Circuit Designs for Digital Signal Processing Systems <i>Prabhnoor Bawa, Shreya Singh, Jagriti S K, Pragati Agrawal and Shobha Sharma</i>	50-59
10. Health Care Digitalization and Machine Learning <i>Ajinkya Yelne and Archana Raut</i>	60-63

11. An Analysis in to CMOS 1-Trit Ternary Full-Adder Technology <i>Bharti Saini and Shobha Sharma</i>	64-71
12. Application of Gamification for Cyber Security Awareness <i>Prajakta Subhash Jagtap and Manish Potey</i>	72-78
13. Comparative Analysis of Open-Source EDA Tool for VLSI Physical Design <i>Hardi Sangani and Dipesha Panchal</i>	79-85
14. The Design and Implementation of Bank Management System <i>Pavitha N and Ritesh S Pokarne</i>	86-94
15. Calorific Value Estimation and Cuisine Recommendation using Neural Networks <i>Vineeth R</i>	95-100
16. Dermasentia <i>Achangudan Allan Joe, Raphael D'costa, Kolapran Jeril Martin and Suraj Khandare</i>	101-107
17. MarathiSarc: A Marathi Tweets Dataset for Automatic Sarcasm Detection of Marathi Tweets <i>Pravin K Patil and Kolhe S R</i>	108-114
18. Theoretical Model based on Smart Energy Systems <i>Harikrishnan R, James K C and Franklin R John</i>	115-121
19. Review on Reference & Routine Measurement Techniques of Milk Fat based on Process, Cost and Instrumentation <i>Pankti Desai and Utpal Pandya</i>	122-130
20. Simulation of Optical Homodyne Coherent Receiver for Inter-Satellite Links <i>Ojashwini R N and Raghu N</i>	131-138
21. Simulation of FHR Signals with Abnormal Variability <i>Ushasri Akkanapalli, Malini Mudigonda, Sai Sreeja Samavedam and Meghana Koppadi</i>	139-145
22. Securing the Crash Failures and Accidentally Destroyed of Large Data using Checkpoint Approach <i>Sonika Chorey and Neeraj Sahu</i>	146-152
23. Driving Decision Strategy using Machine Learning Algorithms for Autonomous Vehicles <i>Phani Sridhar A</i>	153-158

24. Building Flexibility using Deep Learning <i>Rachamsetti Maheswari, Marreddy Rashmitha, Ravi Kishan S and Sailaja Nimmagadda</i>	159-164
25. University Intractive Virtual Assistant (UIVA) <i>Ravindra Vayankat and Mubeen Ahmed Khan</i>	165-169
26. Financial Time Series Data Forecasting for Event Handling <i>Pabitra Kumar Tripathy and Sanjaya Kumar</i>	170-174
27. Convolutional Neural Network based Fire Detection for Surveillance Environment <i>Pooja Verma and Rajitha B</i>	175-180
28. Analysis Techniques for Network Vulnerability Scanning in Ubuntu Linux Environment <i>Vinit A Sinha and Vilas M Thakare</i>	181-185
29. Providing Security and Reducing the Utilization of Bandwidth in Cloud Environments <i>Sandeep Chaitanya N and Ramachandram S</i>	186-204
30. Tweakable Block Cipher based on Catalan number <i>Lalitha Devi G and Suneetha CH</i>	205-211
31. Fusion of Optical Flow and Histogram of Oriented Gradient Features in Abnormal Activity Recognition <i>Mahasweta Joshi and Jitendra Chaudhari</i>	212-217
32. Lightweight Symmetric Encryption Scheme for Public Healthcare Clouds <i>Ravi V and Poornima A S</i>	218-223
33. Crime Data Analysis and Prediction <i>Ritisha D, Pooja R and Jasmine K S</i>	224-228
34. Systematic Survey on High-Utility Itemset Mining <i>Sandipkumar C Sagare and Dattatraya V Kodavade</i>	229-232
35. Diversity DNA Encryption in Layered PTS with FBMC OQAM Systems <i>Ayappasamy K, Nagarajan G and Senthil Kumaran R</i>	233-239
36. Air Art Interface <i>Pavitha N, Shreyash Patil, Sudhanshu Pathrabe, Nikita Punde, Srushti Nikam and Krisha Patel</i>	240-244

37. Comparative Analysis of basic Sequential Circuits based on CMOS and Graphene Nano Ribbon Transistors <i>Ravisham Santha, Aneesh Bharadwaj D and Vasundhara Patel K S</i>	245-251
38. Security of the Health Record Preserving the Privacy of the Patients <i>Mbaye Mouhamadou Moustapha and Gaye Abdourahime</i>	252-259
39. Yojana: Advanced Collaborative Software Development Platform with Special Features for Visually Impaired Developers to Combat Disparity Amidst Software Developers <i>Tanuka Majumder, Sakshi Patel, Aastha Singh and Shobha Sharma</i>	260-269
40. An Empirical Survey on Early Health Condition Prediction based on Clinical Parameters <i>Mrunal Fatangare and Hemlata Ohal</i>	270-276
41. Generative Adversarial Network (GANs) for Image Translation <i>Anala M R, Hemavathy R, Krishna Kulkarni and Samhitha A</i>	277-284
42. Power Allocation approach in MIMO-NOMA using CSO Algorithm <i>Ramchandra Kisan Gurav and Sanjay Arjunsing Pardeshi</i>	285-288
43. Efficient Current Control Tracking in BLDC Motors for Electric Vehicles: A Comparative Analysis <i>Neethu U, Karthick N and Deepu S R</i>	289-296
44. Monitoring and Prediction of Battery Life in Electric Vehicle: A Comparative Study <i>Deepu S R, Karthick N and Neethu U</i>	297-302
45. Motorcycle and Helmet Automation Safety System <i>Shivansh Vikram, Shreya Mishra and Atul Kumar</i>	303-308
46. A Retinal Image Compression and Decompression Algorithm Relies on Regions of Interest <i>Moumita Sahoo, Saurabh Pal and Madhuchhanda Mitra</i>	309-314
47. Machine Learning Algorithm for Work from Home Analysis during Epidemic (2022) <i>Vandana Babshetti and Nihar Ranjan</i>	315-321
48. Robotic Arm Control using Eye Blink Detection <i>Rathi G, Anuradha R, Rohith Vishwa V S and Suryanarayanan R U</i>	322-325
49. Challenges in Internet of Things & Security Solutions Approaches <i>Neha S.Patil and Jaydeep B Patil</i>	326-330

50. IoT-Blockchain based Instrument Integrity Management System Deployed over Insulin Dispensary Device to Ensure Safe Utility <i>Karthikeyan G, Kousalya G and Balakrishnan P</i>	331-337
51. Efficient Digital Binary Calculator using Arduino Uno <i>Palash Jain, Jay Kumar Jain and Minali Gupta</i>	338-343
52. Enhanced LEACH Protocol for Wireless Sensor Networks <i>Samvrudhi K, Thirumala Akash K, Mohammed Riyaz Ahmed and Prashanth B U V</i>	344-351
53. Breast Cancer Survival Prediction using Gene Expression Data <i>Arun Sebastian and Lija Jacob</i>	352-359
54. Smart Shopping Trolley using QR Code and ESP32Cam <i>Ranjith R and Soumyalatha Naveen</i>	360-365
55. Extrasolar Planet Detection using Machine Learning <i>Maitreya Kanitkar, Minal Apsangi, Aanchal Agarwal, Prasad Deshmukh and Mayuresh Jadhav</i>	366-371
56. Text Summerization using Natural Language Processing <i>Manasaveerashyva Y N and Prathibha B S</i>	372-378
57. Security using Blockchain in BGP Protocol <i>Avi Chakravarti and Shipra Shukla</i>	379-384
58. Smart Notes and Summary Maker from Lecture Videos <i>Sakshi Kadam, Prachi Ramane, Leena Ragha and Shruti Raorane</i>	385-391
59. A Review of Blockchain and its Impact in the Education Sector <i>Rohini Ranjan and Shipra Shukla</i>	392-398
60. Image based Text Translation using Firebase ML Kit <i>Vipul Bagal, Kiran Gaykar and Purnima Ahirao</i>	399-404
61. AI-based Office Assisting Robot <i>Mahendra Salunke, Pratik Walunj, Atharva Pailwan and Shreya Ginivar</i>	405-410
62. Analyzing Data Privacy Concerns in Young Adults – Apprehensions of Engineering Students <i>Sakshi Kulkarni, Krutika Konde and Mangesh Bedekar</i>	411-418
63. Desktop Voice Assistant System with the Help of Natural Language Processing <i>Vishal Bisht</i>	419-424

64. An Impact of Preserving Private Medical Data using Blockchain <i>SureshKumar M and Krithika P</i>	425-432
65. Libre Router Connectivity Enhancement Interfacing the Hardware Capable of Cellular Connectivity <i>Sonali Vagadia, Nikunj Patel, Nirav Desai and Hitesh Shah</i>	433-440
66. Automated Hydroponic Controller using System Verilog HDL <i>Pragati Agrawal and Shobha Sharma</i>	441-446
67. Data Collection for Frequency Domain Analysis of Bluetooth Frames <i>Pragati Dhage, Gadade H D, Ravi Marravulla and Shivraj Jadhav</i>	447-452
68. Mixer Design for Global Navigation Satellite System <i>Sukanya M G and Prameela B</i>	453-460
69. Emergency Ambulance Service with Mapping <i>Anu Armstrong, Anwar Sahil C A, Finla N A and Godwin Simon</i>	461-465
70. Indoor Monitoring and Controlling System using Lora (IoT) <i>Akash S, Vasantha Gopi A, Boopathy S and Mirudhula V</i>	466-473
71. Comparative Study on Deep Learning Models for Bearing Fault Diagnosis <i>Azim Naz M and Sarath R</i>	474-481
72. Survey on Pothole Detection Methods <i>Savita Chougule and Alka Surendra Barhatte</i>	482-489
73. Over-the-Top (OTT) Platforms in India <i>Sakshi Kulkarni, Krutika Konde and Mangesh Bedekar</i>	490-497
74. Future of Fitness App with Artificial Intelligence <i>Sandeep G Sutar, Abhishek Chougule, Mayuri Pandhare, Vaishnvee Shinde and Chaitali Kadam</i>	498-504
75. Deep Learning Approach for Traffic Sign Recognition <i>Soumya Bhandari, Saurabh K Suman, Md Altamash and Alwin Anuse</i>	505-510
76. An Efficient Approach for Load Balancing of Tasks in Cloud Computing Environments <i>Akshay Bedse, Puja Padiya and Dhananjay Dakhane</i>	511-518
77. Rice Diseases Pests and Nutritional Deficiency Classification using Convolutional Neural Network <i>Yusha Bhabay and Anand Mane</i>	519-525

78. Ontology based Approach for Reducing Toxicity and Maintaining Similarity <i>Uma Taru and Archana Patil</i>	526-532
79. Real-Time Waste Classification and Localization with YOLOv3 <i>Yug Gajjar, Dhruv Bhavsar, Pratik Awaik, Naresh Patel and Jagruti Naik</i>	533-539
80. Comparative Analysis of CNN and RNN Techniques for Deepfake Video Detection <i>Manasi Kasande, Rashmi Deshmukh, Disha Chaudhari, Parul Sharma, Tanishka Patel and Shilpa Pant</i>	540-546
81. Literature Survey for Design and Analysis of a Multi-Level Algorithmic Technique for Encryption and Decryption <i>Hirdesh Sharma, Gaurav Aggarwal and Sachin Kumar</i>	547-553
82. Finite Element Analysis of Hydraulically Actuated Excavator's Attachment <i>Jay Thakkar, Reena Trivedi and Prakash Parmar</i>	554-559
83. IPC Crime Rate Prediction using Tableau <i>Aakash Yadav, Diksha and Pankaj Aggarwal</i>	560-566
84. Mag Mill – A Novel Methodology of Power Generation <i>Anjaneya Reddy B V, Jayaprakash R, Harinivash K, Manoj G and Ragavapriya R K</i>	567-574
85. Ensemble Classifier Involving Deep Learning Features for Drowsiness Detection from Electroencephalograph Signals <i>Keshava Murthy G N and Vidyalakshmi K</i>	575-584
86. Automatic Helmet Detection and Gate Opening using YOLOv3 <i>Vishal Parikh, Malaram Kumhar, Nistha Wagh, Nidhi Sutariya and Arham Shah</i>	585-591
87. An Overview of Subjective and Objective Assessment of Stuttering <i>Kusuma H R and Seshikala G</i>	592-601
88. Significance of Calcium, Sodium and Potassium in Parkinson's State of Basal Ganglia's STN-GPe Model <i>Shruti Gupta, Jyotsna Singh and Kaushal Kumar</i>	602-608
89. Optimal Trust based Hybrid Collaborative Path Tracing System for Defending Black Hole Attack in MANET <i>Vadhana Kumari S and Sherly Alphonse A</i>	609-615
90. A Research Study on Various Control for Speed Control of BLDC Motor <i>Neethu Salim and Jency Joseph J</i>	616-621

91. Creating a Voice based Email for Blind <i>Roshni Khedgaokar, Anushree Bhure, Janhavi Nagmote, Sakshi Thakre and Bhushan Surjuse</i>	622-627
92. Survey of Reversible Logic: A Review <i>Surekha and Mohd Rashid Ansari</i>	628-633
93. A Novel Algorithm for Data Centric Perspective Analysis on the Covid-19 Crisis <i>Shenbagavadivu S, Senthil Kumar M and Chidhambararajan B</i>	634-646
94. Predicting Air Quality with Mobile Camera using ML <i>Pravin Kumbhar, Vinay Dasmane, Sarang Mashale, Vaishnavi Dudhanikar and Prathamesh Kumbhar</i>	647-653
95. Credit Card Fraud Detection using AI <i>Vaibhav Shende, Sunita Nandgave and Mansi Bhonsle</i>	654-657
96. Performance Monitoring of High Voltage Power Supply using Flyback Converter with Extra High Tension <i>Zope P H, Suralkar S R and Vaishali B Patil</i>	658-664
97. Smart Health Card using RFID (Radio Frequency Identification Technique) <i>Pravin Kumbhar, Asha Thalange, Mahesh Shete, Dharati Shahabade and Vaishnavi Nashte</i>	665-670
98. Security Challenges in Controller Area Network (CAN) in Smart Vehicles <i>Nishant Biradar, Yashodhan Mohite, Niket Pandey, Shreyas Dugad, Shubham Khandajkar, Vaishali Mishra and Madhuri Karnik</i>	671-678
99. An Analysis of CNTFET based Standard Ternary Inverter <i>Sneha, Shilpa and Shobha Sharma</i>	679-688
100. Significance of Synaptic Conductance in Parkinson's State of Basal Ganglia's STN-Gpe Model <i>Shruti Gupta, Jyotsna Singh and Kaushal Kumar</i>	689-694
101. An Analysis of Machine Learning and Deep Learning to Predict Breast Cancer <i>Aiswarya Raghuthaman and Lija Jacob</i>	695-703
102. Review on Micro-Electromechanical Systems (MEMS) <i>Avadhut Sandeep Mali and Gaganjote Kaur</i>	704-709
103. Analysis of Gene Expressed Data of Mouse Strains using Bio-Conductor Packages: A Case Study <i>Santhosh K and Ajitha S</i>	710-715

104. Blockchain an Un-Ended Application Technique <i>Gayatri Bacchhav, Roopali Lolage and Surekha Mali</i>	716-724
105. KNN Regression based Machine Learning Model for the Mitigation of Aging due to Thermal Cycling in Multi Core Processors <i>Jagadeesh Kumar P and Mini M G</i>	725-732
106. Novel Approach for Disease Prediction in Healthcare using Blockchain and Machine Learning <i>Siri A M, Kushala R, Meghana J P, Prerana R Shetty, Shruthi K, Poornima A S and Nirmala M B</i>	733-743
107. Camouflage Object Detection System: A Review <i>Siyamol Chirakkarottu, Arya Babu M B, Arunima Raj B, Anjali V K and Aiswarya Poosari</i>	744-751
108. A Survey on Affordable Internet of Things (IoT) Enabled Healthcare Systems <i>Rajeev Marada, Edidi Sai Anant and Vadivukkarasi K</i>	752-759
109. Blockchain based Medical Data Asset Management System <i>Akanksha Srivastava, Khalid Farooq, Rakshitha B, Rishika Kumari, Shruthi K, Poornima A S and Nirmala M B</i>	760-767
110. A Novel Approach to Detect Indian High Security Registration Plates <i>Arnav Bhardwaj and Sumita Gupta</i>	768-774
111. A Review on Various Piezoelectric Materials for Current Applications <i>Jyothi B, Bhavana P, Thirumala Rao B and Joshi Manohar V</i>	775-781
112. Comparative Study of Algorithms used for Predicting Invasive Ductal Carcinoma (IDC) <i>Suhana R Ghasi, Andhe Dharani and Chandrani Chakravorthy</i>	782-787
113. An Investigative Study of Plant Disease Prediction using Machine Learning and Deep Learning Algorithms <i>Disha Sushant Wankhede, Vaishali Mishra, Atharva Honkhambe, Siddhi Deshmukh, Akash Singh, Shivam Srivastava and Jinshel George</i>	788-795
114. Power Quality Improvement with Reduced Switching Frequency in Grid Connected Wind Energy System <i>Muni Reddy G, Srinivasa Rao K and Sukanth T</i>	796-802
115. Forecasting Prices of Black Pepper in Kerala and Karnataka using Univariate and Multivariate Recurrent Neural Networks <i>Kiranjith K A and Pramila R M</i>	803-810

116. A Systematic Review of Driver Drowsiness Detection using Various Approaches <i>Sneha N Ashture and Sunil B Mane</i>	811-817
117. A Framework to Recognize Multiple Heterogeneous Face-Masks in Real Time using FusionNet <i>Bibhas Das, Souraneel Mandal, Sajib Saha and Dipak kumar Ghosh</i>	818-824
118. Implementation and Performance Analysis of Various Scan Compression Techniques <i>Shreya Patel, Urmila Pariya, Divyesh Nariya and Thakker R A</i>	825-830
119. Implementation and Performance Analysis of Boundary Scan Testing <i>Urmila Pariya, Shreya Patel, Divyesh Nariya and Thakker R A</i>	831-837
120. Flower Phenotype Recognition and Analysis using YoloV5 Models <i>Praveen M Naik and Bhawana Rudra</i>	838-848
121. Digital Health-Care System for Smart IPD Booking <i>Ajinkya Yelne and Archana Raut</i>	849-855
122. Improved ECC based Secured Data Transmission in CRNS <i>Kiran P More and Rajendrakumar A Patil</i>	856-863
123. IoT based Monitoring of Lathe Machine Motor in Metal Industry <i>Akshay D Kadu, Punit Fulzele, Vaibhav V Jiraphe, Harshwardhan Mandhare and Kaustubh Dani</i>	864-870
124. Realistic Power Electronics Converters for Electric Vehicles <i>Krunal Shah and Naimish Zaveri</i>	871-877
125. Test Case Prioritization using Robotic Process Automation (Ui Path Studio Tool) <i>Sakaiya Parween Baig, Arup Abhinna Acharya and Namita Panda</i>	878-884
126. Partial Shading Detection using String Arrangement Technique on Photo-Voltaic System <i>Kushal S and Keshavan B K</i>	885-891
127. Control Strategies in Dc Microgrid Environment <i>Chandana Manjunath and Keshavan B K</i>	892-897
128. Review of “Detection and Prevention of Electrical Power Theft by Artificial Intelligence and Machine Learning” <i>Shabbir Ghadiali, Naimish Zaveri and Zahabiyah Ghadiali</i>	898-911

129. Recognition and Classification of Diabetic Retinopathy using Retinal Fundus Images <i>Anand M and Meenakshi Sundaram A</i>	912-916
130. Finding Instances of Objects in Aerial Images using Earth Vision Small Scale Dataset <i>Neha Pawar, Ashwini Waghmare, Anuja Pratap, Anjalee Thorat, Kedar N Ghogale, Shankar Naik Rathod Karamtoth and Nuzhat Faiz Shaikh</i>	917-923
131. Indoor and Outdoor Scene Recognition <i>Nitin Kumar, Hitesh Singh, Tanya Varshney, Vikrant Malik and Vivek Kumar</i>	924-930
132. An IOT based Framework for Project Management <i>Devendra Kumar and Pragya Tewari</i>	931-935
133. User Interface and User Experience: A Review on Evaluation, Design and Research Methodology for Mobile Applications <i>Sanjana Hosamani</i>	936-942
134. Generic Time Series based Tool for Handling Big Data <i>Vaishali B Bhagat and Thakare V M</i>	943-947
135. Smart Food Wastage Reduction Management System <i>Deepti T S and Shashikala B N</i>	948-952
136. New Indian Currency Detection and Recognition <i>Minshul Sharma, Hitesh Singh, Vikrant Malik, Tanya Varshney and Vivek Kumar</i>	953-959
137. New Similarity Measure for Web Documents Retrieval <i>Ramya C, Hamsha K and Navya V K</i>	960-965
138. Analyzing Handwriting for Gender, Handedness and Combined Prediction using Machine Learning Algorithms <i>Ayushi Agarwal and Mala Saraswat</i>	966-972
139. GUI Testing using AI Automation Framework <i>Dipendra Dabhi, Vijay Ukani and Sandeep Mehta</i>	973-978
140. Humanoid Robotics Ad-Hoc Network (HURANET) using Kalman Filtering Method <i>Mannar Mannan J, Karthick Myilvahanan J, Jayavel J and Maithili</i>	979-984
141. Decision Tree Algorithm: A Survey <i>PunamKhandar, Chetana Thaokar and Abhijeet Thakare</i>	985-990

142. Logistics Management using Blockchain <i>Abinanda P, Velvadivu P and Sujithra M</i>	991-994
143. Cyberbullying Detection and Handling: A Deep Learning Approach <i>Anandha Krishnan A, Akhil C Jose, Allen Jiji, Anand Edwin A and Fasila K A</i>	995-999
144. IoT Technologies, Security Attacks and their Security Measures under Smart City Framework <i>Md Shamsul Haque Ansari and Monica Mehrotra</i>	1000-1007
145. Customized Deep Learning Technique for Vehicle Detection along with Speed Estimation <i>Benjamin Tamang, Sanskar Poudel, Sagar Bhandari, Bipin Damase and Sagar Dhanraj Pande</i>	1008-1015
146. Coil Design for a 3.7kW WPT Electric Vehicle Charger <i>Raja Vidya and Keshaven B K</i>	1016-1027
147. Diet Recommendation by Machine Learning <i>Tanmayee Parbat, Honey Jain and Vinayak Musale</i>	1028-1031
148. Business Process and Quality Management using Lean and Six Sigma Technique <i>Honey Jain, Rohan Benhal and Tanmayee Parbat</i>	1032-1037
149. An IOT based Solution for Crop prediction based on Novel Hybrid Deep Learning Techniques <i>Honey Jain, Rohan Benhal and Tanmayee Parbat</i>	1038-1047
150. Advanced Big Data Analysis Approach for Credit Card Fraud Detection <i>Honey Jain, Rohan Benhal and Tanmayee Parbat</i>	1048-1053
151. E-Health System for Disease Prediction based on Machine Learning <i>Honey Jain, Rohan Benhal and Tanmayee Parbat</i>	1054-1058
152. Privacy and Security of Big Data Architectures for Information Management System <i>Honey Jain, Rohan Benhal and Tanmayee Parbat</i>	1059-1063
153. Performance Evaluation of Different Controllers in SDN using Mininet Emulator <i>Florance G and Anandhi R J</i>	1064-1069
154. Eye Blink Detection System using Haar Cascade Technique <i>Florance G, Kanneboyina Vaishnavi, Segu Vaishnavi Devi and Kottam Vishal Reddy</i>	1070-1075

155. Expert System based on Feature Selection for Classification of Self-Care Problems in Children and Youth People <i>Vijayalakshmi V, Saira Banu Atham and Panimalar Kathirolu</i>	1076-1083
156. Battery Charging Effect Mobile Robot Performance in Discharge Terms Mathematically <i>Kavirayani Srikanth, Papasani Aravind, Uddandapu Divyasree and Sai Vamsi Krishna Tataverthi</i>	1084-1087
157. Demand Response Framework for Minimizing Power Loss by Optimizing DG Parameters <i>Muthulakshmi K, Dhanalakshmi K, Ashwini P and Nayanatara C</i>	1088-1096
158. Portable Device Converting Braille of English and Kannada Language to Speech Output <i>Pratheeksha N and Asha S Patil</i>	1097-1102
159. Speed Control using PWM Technique in BLDC Motor <i>Rakshitha D and Viswanath M N</i>	1103-1109
160. Multi Robot Exploration and Navigation using Wireless Communication <i>Mudasar Basha, Seetha Ramakrishna M, Lakshmi Vaishnavi K and Tukaram K</i>	1110-1118
161. Effects of Non Linear Loading on Power Quality <i>Prashant Kedarnath Magadum and Sangmesh G Sakri</i>	1119-1123
162. Performance Analysis of V/F and Variable Frequency Control Schemes for an Induction Motor <i>Vinuta Patil and Sangeeta Modi</i>	1124-1130
163. Automatic Solar Tracking and Cleaning System of PV Panel <i>Aishwariya and Viswanath M N</i>	1131-1136
164. Design of IoT based Smart Lamp Post System <i>Anisuddin Ahmed S K and Venkatarangan M J</i>	1137-1145
165. Automatic Attendance Management System using Image Processing <i>Payyavula Darshana and Venkatarangan M J</i>	1146-1151
166. Design of An Effective Class Management System <i>Aishwarya N Shet and Asha S Patil</i>	1152-1158
167. Intelligent Decision Making in Power Quality <i>Ahmad Farid Bin Abidin</i>	1159-1161

168. Computational Analysis of Topological Indices for Hexderived Networks of Type 3 and Their Subdivisions <i>Shibsankar Das and Shikha Rai</i>	1162-1169
169. Convergence of Machine Learning with Blockchain Technology <i>Yojana and Yogesh Chaba</i>	1170-1177
170. Analysis of different Resource Allocation Techniques used in 5G Mobile Networks <i>Samiksha Mathur, Yogesh Chaba and Amandeep</i>	1178-1183
