

Table of Contents

1. Modified Automatic Extraction of Roads from High Resolution Images <i>Abhay K Kolhe and Archana Bhise</i>	1-7
2. A Network Operations Center for a Communication Network of Fishing Vessels at Sea <i>Aswini Balakrishnan, Sethuraman Rao, Dhanesh Raj and Kalyan Sasidhar</i>	8-19
3. Classification of MWEs in Hindi using Ontology <i>Rakhi Joon and Archana Singhal</i>	20-26
4. Optimal Resource Assignment in Wireless Mesh Networks <i>Vajihe Farhadi and Ghasem Mirjalily</i>	27-32
5. Active Queue Management in Long Term Evolution All IP Networks <i>Swetha Indudhar Goudar and Suhaidi Hassan</i>	33-38
6. Computer Assisted Intelligent Highway Safety & Alert System in Relation to Indian Scenario using LabVIEW <i>Sharma S, Shah D and Bhavsar R</i>	39-49
7. Hypervisor Forensics: State of the Art and Research Challenges <i>Romika Panwar, Kapil Dev, Mukesh Kumar and Noor Mohammad</i>	50-55
8. HAODV Routing Protocol for Clustering using Efficiency Division Factor <i>Anzar Ahmad, Joshi R C and Gupta S C</i>	56-61
9. Visual Analysis of Educational Data using Neural Network based Clustering and Classification Approach <i>Pratiyush Guleria and Manu Sood</i>	62-68
10. Network Security and Behavior Analysis of an Institute using Wireshark <i>Amanpreet Kaur and Monika Sachdeva</i>	69-84
11. Comparative Study of Backhaul Options for Communication at Sea <i>Sethuraman Rao, Jennath H S, Anju Kaimal and Dhanesh Raj</i>	85-96
12. An Evaluation of e-Government Service Quality and the Impacts of Cloud Computing on Government Sector in Oman <i>Kawther Al-Sayegh and Prakash Kumar U</i>	97-105

13. Community Detection in Social Networks using Structural Strength and Node Attributes	106-113
<i>Devi kannuru and Santhi Thilagam P</i>
