

Table of Contents

Long Paper

1. Simulation of Shunt Active Power Filter for Compensating Current Harmonics for Single Phase System
Srinivas K, Srinivas G and Narasihma Rao K 1-7
2. Mechanism and PLC Design of Twin Spindle Drilling Machine – A Innovative Approach
Pravin R Patil and Tayade R M 8-14

Full Paper

3. Need for Professionalism in Projects
Parin Gosar, Gayatri S and Narkhede B E 15-20
4. A Critical Review on the Shear Lag Effect of Steel Channel Sections Subject to Tensile Loading
Rishi D S, Surendran M, Marimuthu V, Saravanan M, Palani G S and Prabha P 21-29
5. Distributed Generation: Benefits, Issues and Challenges
Prasanna Kumar Biswal, Deepak Kumar Lal and Bidyadhar Rout 30-36

Regular Paper

6. Experimental Analysis of Harmonics Reduction in Single Phase Battery Charger
Narendra Kumar M, Kuldip Singh and Anjaneyulu K S R 37-43
7. Discharge Estimation by Rational Method using Global Mapper GIS for Sustainable Stormwater Management: A Case Study from Pune City
Nivedita G Gogate and Pratap M Rawal 44-52
8. A Novel and Efficient Method for Denoising and Compression of MR Images for Telemedicine Applications
Ananda Resmi S and Ajith A 53-58
9. Voltage Improvement in Wind Farm using STATCOM with NSVFF Control
Rijo Rajan and Reji P 59-66
10. Survey on Hadoop MapReduce Scheduling Algorithms
Pranoti K Bone and Wade A M 67-71
11. SET for Cluster-based Cloud Computing: A Survey
Neelambike S and Mallikarjunaswamy B P 72-74

12. A Novel Approach : License Plate Identification from Videos <i>Sreelekshmi A N</i>

75-80
