

Table of Contents

1. Trend and Variability Analysis of Rainfall in Thrissur Corporation <i>Amitha P, Shijith Raj, Deepu T and Meera V</i>	1-6
2. A Novel Rule based Energy Management Strategy using Fuzzy Logic for Power Management of Plug-in Hybrid Electric Vehicle in Parallel Operation <i>Mohammad Suhail, Abrar Ahmad, Sheeraz Kirmani and Munna Khan</i>	7-13
3. Solar Power Generation Forecasting by using Artificial Neural Network and Back Propagation Algorithm <i>Shashikant and Binod Shaw</i>	14-19
4. Settle Pot <i>Shravanthi E, Hemamalini B H, Gehna Jain and Gourav Dubey</i>	20-27
5. Comparative Study on Handwritten Character Recognition Tools <i>Arthik Bhandary and Anala M R</i>	28-37
6. Research Summary of Load Balancing and Interoperability in Distributed IoT <i>Suvarna N Aradhya and Rashmi Priya</i>	38-48
7. Review on Classification of Natural & Synthetic Images <i>Nilesh S Wadhe and Nidhi Tiwari</i>	49-56
8. An Empirical Study of Safety Models used in Driver Assistance Systems from a Statistical Perspective <i>Rashmi A Wakode and Mohod S W</i>	57-67
9. Blueprint of Emerging Techniques used in Sentiment Analysis <i>Bapat M M, Mali S M and Patil C H</i>	68-75
10. Seismic Vulnerability Assessment of RC Frame Building using Direct Displacement-based Approach <i>Twinsy Palsanawala, Kaushik Gondaliya, Vishisht bhaiya and Sandip Vasanwala</i>	76-82
11. Cipher Block Chaining Technique based on Euler Graph <i>Murthy MPR and Suneetha C H</i>	83-90
12. Adverse Drug Reactions Extraction from Social Media: A Systematic Review <i>Arijit Dey, Subhadip Chandra, Chandan Kumar and Shrivastava J N</i>	91-98

13. Detailed Analysis of Three Diode Model of Solar Photovoltaic Cell with Maximum Power Point Tracking Algorithms <i>Pradeep Kumar and Poonam Singhal</i>	99-108
14. Designing a Secure Interactive ATM for Visually Impaired People <i>Kargil Thakur, Aditya Tayde, Aditya Wanjari, Amit Tembhurkar and Shilpa Sonawani</i>	109-115
15. Analysis and Prediction of COVID-19 Spread in India <i>Santosini Bhutia, Bichitrananda Patra and Mitrabinda Ray</i>	116-123
16. Intelligent Video Analytics for Better Planning of Smart Cities using Edge Computing <i>Savita Shetty, Raghav Maheshwari, Rithika Mehta and Shirsh Vardhan Kashyap</i>	124-130
17. Vulnerability Assessment of All Saints' Church – a Unique Heritage Building in Bengaluru <i>Saugat Rijal, Suraj George Kottakat and Raghunath S</i>	131-139
18. Covid-19 Bed Allocation System <i>Kevin P, HemaMalini B H, Hrishikesh B and Charukesh</i>	140-143
19. Bank Reliability and Stability: An Important Concern <i>Punith A S, Namana J Jain, Nagavishnu H and Bhaskar G</i>	144-152
20. Estimation of Water Requirement for a Location using Machine Learning <i>Lavanya P, Nitin Krishna, Abhishek B J and Bhaskar G</i>	153-161
21. Experimental and Simulated Investigation of Solar Greenhouse Dryer for Drying Fenugreek Leaves using Computational Fluid Dynamics <i>Soumya Hublikar and Anil T R</i>	162-166
22. Vitality Efficiency Info Gathering using Shortest Route in WSN's <i>Konda Hari Krishna, Tapsi and Suresh Babu Y</i>	167-172
23. Recent Trends in LC Voltage Controlled Oscillator to Achieve Low Phase Noise: A Literature Survey <i>Kruti P Thakore, Shah D J and Devashrey N M</i>	173-185
24. Triggering Issues Related to Serverless Function in Serverless Computing Environment <i>Shashank Srivastava and Santosh Kumar</i>	186-189
25. Comprehensive Rating System for Net Zero Building <i>Neha M Patel and Digant A Pastagia</i>	190-196

26. Energy Harvesting from Vibration on Aircraft Structures using Piezoelectric Materials 197-202
Aravindrao M Yadwad, Shashank Srinivasan, Dharanish J, Yogeesh K K and Mahesh G Emmi
27. A Systematic Literature Review on Bone Age Assessment using Machine Learning and Deep Learning Models 203-210
Sonal Deshmukh and Arti Khaparde
28. Energy Efficient Design of Full Adder using the XOR/XNOR Gates 211-215
Gayathri K and Poongodi S
29. Smart Wearable Real Time Health Monitoring System using IOT and Cloud 216-220
Meghana G and Bhat Geetalaxmi Jairam
30. Automated Early Detection of Astrocytomas Tumor based on Optimized Adaptive Cluster with Super Pixel Model 221-226
Deepak V K and Sarath R
31. A Comparative Study of Re-Sampling Techniques on Machine Learning Model Performance 227-234
Pavitha N, Ashwini B P, Savithramma R M and Sumathi R
32. A Method of Real-Time Datalink Support for Differential Navic Measurements 235-240
Ramesh Raju and Raju Garudachar
33. Sign Language Interpreter using Convolutional Neural Network 241-245
Ranjana Battur, Arundhati Nelli, Pavan Kunchur, Sadhana Bangarashetti and Nelson Lobo
34. A Systematic Review of Deep Learning Architectures in Traffic Congestion Prediction 246-251
Karthika B, Uma Maheswari N and Venkatesh R
35. Guidelines for Designing Critical Parameters of Split Mechanical Seal 252-256
Abhishek Patel, Dhaval Patel, Vipul Bhojawala and Bimal Mawandiya
36. Farm Security with Fuzzy Classification- An Approach 257-261
Jyoti A Lele and Amogh Wyawahare
37. Lungs Cancer Identification by Deep Learning 3D CNN Architecture 262-267
Astha Pathak and Avinash Dhole
38. Speech Recognition for Decision Making using Machine Learning Algorithms & Techniques: A Review 268-281
Devi Mampi and Sarma Manoj Kumar

39. Mammographic Image Classification using Texture Features <i>Jagadish N, Shrishail Math, Deshpande S L and Manisha Tapale</i>	282-290
40. Accuracy Comparison: An Approach of Unsupervised Machine Learning Algorithm for Assamese Speech Recognition <i>Devi Mampi and Sarma Manoj Kumar</i>	291-298
41. Automated Computer Aided Detection of Diabetic Retinopathy using Machine Learning Hybrid Model <i>Aishwarya Kubde and Sharad W Mohod</i>	299-307
42. Addressing Class Imbalance Problem in Chronic Kidney Disease <i>Pranita Mahajan and Prachi Shahane</i>	308-313
43. A Systematic Review of Abnormal Behavior Detection: Convolution Neural Networks and Long Short Term Memory Models <i>Kande Archana and Kamakshi Prasad</i>	314-319
44. Automatic Text Summarization using Wu-Palmer Measure and Graph based Sentence Selection <i>Rishav Rakshit, Chandralika Chakraborty, Udit Kr Chakraborty and Bhairab Sarma</i>	320-325
45. Efficient on-Demand Routing Protocol for Mobile Ad hoc Network <i>Thamizhmaran K and Charles A</i>	326-331
46. Design of CPW Feed Complementary Split Ring Resonators Loaded Microstrip Antenna for Brain Tumor Detection <i>Kusuma Kumari E, Purnima K Sharma, Rama Devi D and Dinesh Sharma</i>	332-339
47. Utilization of Human Heat to Generate Power using Thermoelectric Generator <i>Mrunal Deshpande, Parithi R, Mohamed Adhil A, Logeshwaran S and Kabilan C</i>	340-346
48. Implementation of Test Automation with Selenium Webdriver <i>Aneesha Gudavalli and Jaya Lakshmi G</i>	347-353
49. Auto-Generation of Captions for Ancient Indian Historical Images using Deep Learning Networks <i>Rama Devi P and Shylaja S S</i>	354-362
50. Human Imitation in Images and Videos using GANs <i>Keshetti Sreekala, Vishal Das and Amulya V</i>	363-372
51. Flood Prediction and Alert System using ML and Sensor Networks <i>Bhaskar G, Vedashree C N, Astha Rani, Bharath T R and Sudha G T</i>	373-380

52. An IDS in Cloud Environment by using Feature Selection based Hybrid Multilevel Classifier <i>Partha Ghosh, Prashant Kumar, Soumyadip Paul and Santanu Phadikar</i>	381-386
53. Hybrid E- Learning Model, Integration of Synchronous, Asynchronous, Face-to-Face and Remote Learning <i>Ananthi Sheshasaayee and Rafath Zahra</i>	387-391
54. Detecting Cyber Bullying using ML Algorithm <i>Ravikumar S, Udaykiran K, Omkar Adabala, Duggempudi Jagadeeswar Reddy and Adabala Siva Deepthi</i>	392-397
55. Alternative Approach of Segmenting Optic Disc for Glaucoma Detection <i>Sujithra B S and Albert Jerome S</i>	398-407
56. Smart Bin for Segregation of Household Wastes <i>Rukkumani V, Saravankumar M, Kavitha S, Anitha T and Siva Poovitha S</i>	408-414
57. Safety Monitoring System for Sewage Workers <i>Rukkumani V, Aparnashree J, Gayathri V, Sandhya Dharani T and Nandhini G B</i>	415-422
58. An Innovative Humanoid Assistant for Performing Simple & Repetitive Tasks <i>Parth A Puneekar, Parvati V K, Alok B Mattikalli and Gadad G M</i>	423-429
59. SVPWM for Analysis of Induction Motor <i>Nageswara Rao G and Aruna Kumari K</i>	430-435
60. Facial Recognition Attendance System using MTCNN and FACENET <i>Eliganti Ramalakshmi, Suhaas Doddapaneni and Suhas Gajawada</i>	436-440
61. Hand Sign Recognition using YOLOV5 <i>Alen Charuvila Saji, Ramalakshmi K, Senbagavalli M, Hemalatha Gunasekaran and Shamila Ebenezer</i>	441-446
62. Analysis of Automatic Classification & Diseases Identification of Plant Diseases using Pre Train Convolutional Neural Network Models <i>Pooja Sharma and Rekha Jain</i>	447-456
63. Smart Electronic Voting Device using Blockchain Technology <i>Subasri N and Rubasri N</i>	457-462
64. Types of Coverage in Wireless Sensor Network: A Survey <i>Vinay Chowdary and Tiyasa Bera</i>	463-467

65. Flutter –Cross Platform Ide for Mobile Applications <i>Vijayalakshmi S Katti and Sowmya K</i>	468-472
66. Prediction of Employee Turnover using Machine Learning <i>Shanthakumara A H, Divya J, Harshitha H T, Pallavi L V and Spoorthy B C S</i>	473-480
67. Covid Patient Health Monitoring System <i>Janani J, Aishwarya M, Sangeerani Devi A M E and Chinnasamy A</i>	481-486
68. Efficient Stock Prediction Technique using ML <i>Hemachanderen R P, Akash S, Sanjay Roshan R, Sangeerani Devi A and Hemavathi S</i>	487-490
69. Survey Paper on Massive MIMO System based on Beamforming Technology for mmWave Communication <i>Bhawana Pal and Uday Panwar</i>	491-497
70. Review on Performance Enhancement of Fog Computing <i>Anju Babu and Shobha Rekh</i>	498-503
71. A Comprehensive Literature Survey on Power Loss Minimization Techniques and Methods in Electrical Distribution Networks <i>Rudresh B Magadum, Avinash V Deshpande, Vinay J Shetty and Sateesh N Dodamani</i>	504-513
72. Low Cost Frame Work of E-Education with Special Reference to Rural Area using WiMAX <i>Pradip Kumar Samanta</i>	514-521
73. Building a Breast Cancer Prediction Model using Machine Learning Algorithms <i>Vijaya G</i>	522-528
74. Malicious Firmware Attack Detection on Cloud Application using Deep Latent Dirichlet Allocation (MFA–LDA) <i>Arul E and Punidha A</i>	529-534
75. Smart Attendance Management System using CNN <i>Rasi Harshini B and Padmaja M</i>	535-541
76. Multilevel Cascaded Inverters having Improved Output Level with Reduced Power Switches - A Novel Approach <i>Sanjiba Kumar Bisoyi, Parveen P Terang, Sampath Kumar V and Veerendra Kumar A N</i>	542-551

77. Development of Web Application for Breast Cancer Detection using Machine Learning Classifier <i>Shital Pawar, Prachi Shukla, Priyanka Bagal, Asawari Dawkhar and Rohini Jadhav</i>	552-556
78. Malicious Firmware Attack Detection in ICT tools Connected on Cloud Services using Deep Random Forest (MAC-DRF) <i>Arul E and Punidha A</i>	557-562
79. Visible Light Communication Technology in Under Water Communication <i>Anitha Vijayalakshmi B, Gandhimathi P, Arunsundar B and Nesasudha M</i>	563-566
80. A Compact Dual Polarisation Antenna with Improved Impedance Matching and Reduced Cross Polarisation <i>Rajesh Kumar N, Sathya P D and Sakithivel V P</i>	567-573
81. Cost Benefit Analysis for Distribution Transformer Placement in Electrical Networks <i>Rudresh B Magadum, Sateesh N Dodamani, Sudhakar C J and Sanjeev G Kulkarni</i>	574-580
82. IOT Enabled Agriculture in Smart Drip Irrigation System <i>Sivakumar V, Bakkachenna Ranadeep Reddy and Swathi R</i>	581-586
83. Friend Recommendation in Social Media Platforms using Big Data Analysis <i>Himasahana R, Sai Srija Panchagnula and Subrahmanya Kousik K</i>	587-590
84. Recognition of Foreign Bodies for Grading of Food Grains using Machine Learning Techniques <i>Pushpalatha K R, Asha Gowda Karegowda and Poorrnima D</i>	591-598
85. Learning Combination of Activation Functions and Various Optimizers with Loss Function for Improved Bi-LSTM Lexicon Embedding Model <i>Nibedita P and Asha T</i>	599-612
86. Review Paper on Sentiment Analysis for Hindi Language <i>Madhuri Thorat and Nuzhat F Guide</i>	613-617
87. Effects of Generation of Spurious Tuples during Joining of Relations in Case of BCNF based Relations <i>Bhanuprakash C, Jeevan P R and Tara K N</i>	618-626
88. A Quick Analysis on Cyber Physical Systems for Sustainable development <i>Shivani Gaba, Deepak Kumar, Shally Nagpal and Alankrita Aggarwal</i>	627-633
89. Hypervisor and Virtualization in Cloud Computing <i>Bhavisha Patel, Vatsal Joshi and Vatsal Shah</i>	634-642

90. Air Quality Index Prediction using Machine Learning Techniques <i>Bharathi P T and Malatesh S Jangannavar</i>	643-658
91. Traffic Aware Channel Assignment for Dynamic Wireless Mesh Networks <i>Jasmine David D, Jemima Jebaseeli T and Venkatesan R</i>	659-663
92. Weight Aware Channel Assignment with Node Stability in Wireless Mesh Networks <i>Jasmine David D, Jemima Jebaseeli T and Venkatesan R</i>	664-671
93. Collective Intelligence in Online Educational Technologies <i>Amruta P Chougule and Manisha S Dabade</i>	672-678
94. IOT and Machine Learning based Building Energy Management <i>Leo Raju, Vallaba Gurunath and Roshan Darran R</i>	679-687
95. Real-time Load Monitoring and Estimation of Waterline in Boat using Load Cell Assembly and Ultrasonic Sensor <i>Kaul K V, Sneh Patel, Dhruvil Bhanderi, Prashanti Mistry, Aayush Shah and Ketul Patel</i>	688-693
96. A Survey on Energy Efficient Strategies for Heterogeneous Wireless Sensor Networks <i>Rohit Gupta, Parveen Kumar, Vinith Chauhan and Yogesh Bhomia</i>	694-704
97. Design of a Decision Making Model for Integrating Dark Data from Hybrid Sectors <i>Sonam V Maju and Gnana Prakasi O S</i>	705-712
98. Optimal Path Selection for Sequence Alignment using Hirschberg's based Dynamic Programming Model <i>Senthilkumaran N</i>	713-720
99. Coslets for Classification of Covid-19 X-Ray Images <i>Basavaraju H T and Manjunath Aradhya V N</i>	721-726
100. Classification of Covid-19 in Chest X-Ray Image <i>Spoorthi C M, Basavaraju H T, Manjunath Aradhya V N and Tejaswi K</i>	727-732
101. Non-Invasive Machine Learning Classification Models for Early Alzheimer's disease Detection <i>Akta Rani, Deepak Kumar and Suresh Chand Gupta</i>	733-739
102. An Improved Deep Convolutional Neural Network Model for Thyroid Nodule Classification <i>Poornima D, Asha Gowda Karegowda and Pushpalatha K R</i>	740-748

103. A Framework for Measuring Emotional Responses of Individuals in Social media by using Big data Approach <i>Sathishkumar P, Suguna R, Deepa S and Arunkumar M S</i>	749-754
104. An Evaluation of MFCC and ZCR Feature Extraction with CNN Model of Speaker Identification System <i>Kaladharan N and Arunkumar R</i>	755-762
105. Smart Plant Watering System <i>Geetika S, Vasupradha S, Kavitha D and Chinnasamy A</i>	763-767
106. Smart Application to Enhance in-Store Shopping <i>Subanachiar T, Arunachalam M, Hemalatha P R and Anchitaalagammai J V</i>	768-772
107. Study and Analysis of Various Big Data Analytics Tools for Data Processing <i>Aravinth S S, Vijay Anand P, Arul Prasath A and Dasari Anantha Reddy</i>	773-779
108. An Automated Segmentation Approach using Clustering Technique for Dental Problems Impacted 3 rd Molar <i>Kavindra R Jain and Niky K Jain</i>	780-789
109. VLSI Low Power Design Analysis Modeling Strategies <i>Varghese M P, Muthumanickam T and Sheela T</i>	790-793
110. Tamil Filmy Music Genre Classifier using Deep Learning Algorithms <i>Christina Gnanamani and Shanthini Pandiaraj</i>	794-800
111. Deep Learning Image Inpainting Techniques: An Overview <i>Shylaja B and Saravana Kumar R</i>	801-807
112. Preprocessing and Classification Algorithms on Micro Array Data for Cancer Classification <i>Chaitra P C and Saravanakumar R</i>	808-814
113. Efficient Routing for Energy Harvesting in Wireless Sensing Networks <i>Deepika Goel, Shekhar Singh, Gupta S C and Deepak Kumar</i>	815-820
114. Earthquake Damage Prediction using Machine Learning <i>Mahendran M, Anbazhagan K, Pavithran G, Nivas A and Dhiraj Pandey S</i>	821-827
115. An Integrated Framework for Smart Farming using Internet of Things and Computational Intelligence <i>Pramod Mathew Jacob, Jeni Moni, Renju Rachel Varghese, Bibin Vincent, Prasanthi S and Smitha Joseph</i>	828-836

116. An Optimal Energy Competent Mission based Collision Avoidance Protocol Scheme for Multi-Rotor UAV's <i>GraceShalini T and Rathnamala S</i>	837-846
117. Design of Intelligent Mirror System using IoT& AI <i>Leo Raju and Thivagar T</i>	847-851
118. An Android Application Development for Image Watermarking using QR Code <i>Shital Pawar, Rifat Shaikh, Poonam Navale, Ritika Dhawkhre and Shalini Kamble</i>	852-857
119. Stock Prediction using Machine Learning Algorithms <i>Komal, Gupta S C, Shekhar Singh and Deepak Kumar</i>	858-871
120. Senior Citizen Care using Micro Expression Analysis on Live Elderly Video (MEA-LEV) <i>Rajasekaran S and Kousalya G</i>	872-880
121. Hyperspectral Image-based Land Cover Prediction using Improved Elman Network Model <i>Vasanthi R and Christopher Durairaj D</i>	881-889
122. Modelling an Efficient Cloud-based System Approach for Agricultural System <i>Sherubha P, Nivetha L, Yogapriya J and Preethi P</i>	890-898
123. Detection of Face Mask <i>Sunita Panda, Sai Charan V K, Akhileswar, Bhanu A O and Subahan Basha</i>	899-903
124. Analysis of Campus Placement Data: A Case Study <i>Aditi Indoori, Sathvika Patwari and Prathima T</i>	904-909
