Table of Contents

1. Improving the Performance of PSO based Clustering by using Surrogates 1-6
Priyanka Shrivastava, Mangesh Khandelwal and Vinod Kumar

2. Hybrid Data Encryption Algorithm using Id-based Encrypted Key at Cloud Storage 7-14
Ankita Gautam, Garbita Gupta and Tiwari N K

3. Enhancement of Work Efficiency in an Organization by Applying Ergonomics & Sound Waves Sessions 15-23
Anu Jain, Ankit Gupta, Sachin Jain and Aditya Vidyarthi

4. A Review on Investigation and Enhancement in Productivity in Manufacturing Industry through Lean Principle 24-28
Santosh Choudhary, Ashwini Sen and Surjeet Singh Baghel

5. An Improved Approach for Enhancing the Quality of Web Contents by using Web Access Information and Big Data Mining Techniques 29-35
Swapna Sahu, Anuj Kumar Pal, Smita Shandilya and Shishir K Shandilya

6. A Study on Energy Conversion from Ocean Wave for OWEC Prototype 36-41
Gaurav Nandwani, Vandana Sharma and Rajeev Arya

7. To Improve the Plastic Component Quality using FMEA A Case Study 42-45
Rahul Kant Shrivas, Kamlesh Thakre, Pandey J K and Aditya Vidyarthi

8. An Hybrid Approach for an Improved Recommendation System by Combining the Concepts of Fuzzy Clustering and Voting Theory Techniques 46-49
Pankaj Agrawal, Prashant Agnihotri, Imran Ali Khan and Damodar Tiwari

9. Mining Closed Sequential Patterns in Large Sequence Databases 50-55
Lokendra Shah, Priyanka Chouhan and Tiwari N K

10. Heart Disease Prediction using PCA-KNN in Data Mining 56-66
Shweta Gupta, Aditi Nema and Kiran Agrawal

11. An Efficient Skyline Query Processing based Approach Combined with Improved Parameters for Nearest Location Search 67-71
Pooja Rao, Imran Ali Khan and Damodar Tiwari

12. A Survey: Identity Matching Technique over the Social Media Profile 72-74
Monika Saunakiya, Damodar Tiwari and Shishir K Shandilya

13. A Survey: Android Thread & Spamming Detection Approach Analysis 75-77
Priyanka Usrate, Damodar Tiwari and Tiwari N K

14. A Survey: Opinion Mining over the Online Review Data Extraction 78-80
Rachna Mishra, Kiran Agrawal and Tiwari N K

15. An Investigation of Lean Manufacturing Implementations in SMEs-A Review 81-84
Shailendra Vishwakarma, Rohit Raghuwanshi and Shyam Barode

16. Improved Apriori Algorithm for Web Log Data 85-90
Santosh Shakya, Susheel Gupta and Gopal Patidar

17. Result Analysis of Reliable RGB Color Image Watermarking using DWT and DCT 91-99
Shefali Saxena, Ritu Jain and Shishir K Shandilya

18. Bandwidth Aware Routing with SIC through Genetic Algorithm in MANET 100-107
Shikha Shrivastava, Garbita Gupta and Shishir K Shandilya

19. Assembly Line Balancing using Simulation in Manufacturing Industry 108-111
Nikhil Dwivedi, Sourabh Khare and Ajay Pandey

20. A Survey : Sybil Attack Detection and Prevention Approach over Network 112-115
Swamil Soni, Damodar Tiwari and Shishir K Shandilya

21. TensorFlow Commemoration Smart Devices Retaining Remembrance Digitally 116-121
Amit Saxena, Nishtha Jain and Aditya Sharma

22. A Study on the Feasibility of TQM Approach 122-126
Ram Pravesh Yadav and Abhishek Chourey

23. A Novel Survey on Next Generation Networks- A study for IPv6 Deployment in India 127-131
Varsha Jain, Dipti Chauhan, Damodar Tiwari, Jay Kumar Jain and Shishir K Shandilya

24. Analysis of Fractal Image compression Technique in Neural Networks 132-137
Anshu Agarwal, Smita Shandilya and Shishir K Shandilya

25. Aviation Data Analysis using Hadoop and its Ecosystems 138-145
Sneha Singh Baghel, Imran Ali Khan and Garbita Gupta

26. 8-bit and 16-bit High Speed Vedic Multiplier using Kogge Stone Adder 146-154
Rama Rani Rai and Manish Saxena

27. Reduce Slice Resisters and LUTs for Discrete Cosine Transform (DCT) using CORDIC Algorithm 155-159
Alpana Upadhyay and Manish Saxena

28. Design and Analysis of Encoder and Decoder for Golay Code 160-168
Shivam Kumar Gupta and Hariom Solanki

29. High Speed IEEE 754 Floating Point Multiplier using Different Types of Adder 169-179
Anekant Jain and Manish Saxena

30. Design and Implementation of BCD Adder and Subtractor using Reversible Gates 180-188
Amita Mishra and Manish Saxena

31. High Density Noise Removal for Magnetic Resonance Imaging by Modified Median Filter 189-198
Deepika Mukati and Nayak K K

32. Comparative Analysis of Various Restoration Algorithm used for Blur Image for Gaussian Noise 199-207
Awani Tiwari and Singh K P

33. Audio Classification: A Comprehensive Survey of Research 208-214
Arshi Khan, Garbita Gupta, Smita Shandilya and Shishir K Shandilya

34. Review Paper on Adaptive Channel Estimation Technique in MIMO-OFDM System 215-219
Sandip Ukarde and Raghuveer Dongre

35. A Review on Residue Module Arithmetic's Adder and Sub-tractor using Reversible Gate 220-228
Pragya Mishra, Nishi Pandey and Neelesh Gupta

36. Authentication Techniques for Mobile Cloud Computing and validates its Effectiveness 229-232
Rupali Tekade, Kiran Agrawal and Shishir K Shandilya

37. A Review on Text based Emotion Recognition System 233-237
Honey Sharma, Kiran Agarwal, Tiwari N K and Shishir K Shandilya

38. Behavior of the Nature of Load Applied to Resonant Circuit 238-242
Prachi D Mohite and Thorat C S

39. Power Saver for Industries and Commercial Establishments 243-247
Sandeep Gupta and Akash Talwariya

40. FPGA based Design and Implementation of Cascaded FIR Filter for ECG Signal Processing 248-255
Harshal B Shingne and Dhanashri H Gawali

41. Harnessing Digital Revolution for Technical Academic Performance: Context to Rurban Segment 256-262
Smita Pallavi, Lal K and Lal S P

42. Implementation of AMBA-APB Protocol with Low Power Dissipation 263-266
Sandeep Jagre, Neelesh Gupta and Nishi Pandey

43. A Review on Image Encryption using QR-Code 267-272
Jyoti Bharti and Akanksha Sahu

44. A Hybrid Approach for Identification of Coronary Heart Disease using PSO-DEFS 273-283
Kowsalya Devi J and Geetha P

45. Monitoring of Toxic Gases and Land Slide Prevention Utilizing IoT 284-288
Gunjan Shailesh Joshi and Achala Deshmukh

46. Scanned Compound Image Compression using Block based Pattern Matching 289-294
Shubhada S Thakare, Sujata N Kale and Swarup S Mathurkar

47. Design and Development of Solar Tree to be install in Campus of TRUBA Group of institutes, Bhopal 295-300
Md Moiz, Raghvendra Singh Tomar, Vidyanshu Thakur, Rajeev Arya and Shravan Vishwakarma

48. Security Report for Mobile Wallet implemented from NFC Technology for Mobile Payment 301-304
Abhishek Soni and Vikas Kulshreshtha

49. A Legal Case Ontology for Extracting Domain-Specific Entity-Relationships from e-judgments 305-312
Anu Thomas and Sangeetha S

50. A Generic Framework to Model, Simulate and Verify Physiological Parameters for Prognosis of Health 313-319
Hemant Kasturiwale and Sujata N Kale

51. A Frequent Pattern Mining Algorithm in Cloud Computing Environments using Association Rules Mining Algorithm 320-324
Avinash Sharma and Tiwari N K

52. A Novel Approach of Data Hiding in Multimedia Files using Neural Network 325-331
Komal Tahiliani and Tiwari N K

53. A Hybrid Access Control System for Easy Sharing of Organizational Data in Cloud Environment 332-336
Reetu Gupta, Priyesh Kanungo and Nirmal Dagdee

54. Extraction of Hu-Descriptors from Short-Term-Fourier Transforms in Non-Stationary Gear Fault Diagnosis 337-341
Krishnakumari A, Andrews A and Pravin S

55. Trends of Differentiation of Igneous Rocks using Unconfined Compressive Strength 342-348
Shardul Mantri and Asita Dalvi

56. Spinal Artificial Implant Mechanics and Ossification Issues 349-352
Narayan Yoganandan, Jamie L Baisden

57. Challenges in Frequency Allocation for Telemetry Downlinks of Co-located Geostationary Satellites 353-356
Sirshendu Das, Neelavathy M, Kosuru Sai Malleswar, Khan Afzaal and Rajeev Ranjan

58. Geo-synthetics in Road Pavement: An Overview 357-364
Dhananjay Jadhav and Asita Dalvi

59. Approximate Transient Analysis of an Squirrel Cage Induction Motor under DC Dynamic Braking 365-372
Subhagata Chakraborty, Naskar A K and Sarkar D

60. Non-Pre-emptive Leader Node Election Algorithms for Maintaining Connected Network in Energy Conscious MANET 373-383
Arnab Mallik and Abhijit Das

61. Web-based Flywheel Battery Control System with Regenerative Braking 384-391
Umesh M, Joshua Freeman, Balakrishnan Shankar and Krishnashree Achuthan

62. Comparative Analysis of Traditional and Adaptive Routing Technique for MANETs in NS2 Environment 392-400
Annapurna P Patil, Prashanth M N and Neeraja R Mennon

63. WMN Routing Scheme to Reduce the Traffic Overhead based on GPS-Addressing 401-405
Vambase S V and Mangalwede S R

64. Irrigation through Air Drop Drones 406-412
Shaik Mukthiyar, Karthikeya K, Dittakavi Raghuveera Sai Sarath and Kommana Srinivas

65. Discussion on Consideration of Uplift Forces in Foundation Stability Checks 413-416
Pankaj Goyal, Vikrant Gupta and Arnab K Bhattacharya

66. Artificial Intelligence based Modelling of Biometric User Authentication System using EEG Signals 417-423
Bhagyashri Bhiogade and Khurshid A A

67. Performance Evaluation & Comparative Study of Dual Input non isolated DC-DC Converters for Hybrid Power Systems 424-433
Hemalatha J N, Anitha G S and Hariprasad S N

68. PC-PC Communication using FSK Modulator and Demodulator 434-438
Hema Kale

69. Paradox in Genetic Programming Modeling with Reference to Predicting Strength of Concrete 439-447
Preeti Kulkarni, Shreenivas Londhe, Faezehossadat Khademi and Sayed Mohammadmehdi Jamal

70. HVDS Concept for Distribution Feeder Loss Minimization 448-452
Urvee Sharma and Falguni Bhavsar

71. Image Quality Assessment of No Reference JPEG Compressed Images using Various Spatial Domain Features 453-459
Ajinkya M Pund, Shubham C Anjankar, Ankush D Kadu and Pranav J Mankar

72. Fuzzy Logic based Optimization of Weld Properties in Submerged Arc Welding using Agglomerated Fluxes 460-467
Siddharth Choudhary, Rohit Shandley and Aditya Kumar

73. Characterization of Multi-Link Channel for Wireless Channel 468-475
Devang Modi and Patel V K

74. Java based Network Intrusion Detection Systems using Object Oriented Methodology 476-485
Nareshkumar D Harale and Meshram B B

75. Analysis of the Performance of Various Edge Detection Techniques in Detecting Prominent Edges in Plant-based Images 486-494
Radhika Kamath, Mamatha Balachandra and Srikanth Prabhu

76. Proposed Router Intrusion Detection and Protection Systems 495-502
Nareshkumar D Harale and Meshram B B

77. Reliability Analysis of Open Source Software based on User Growth 503-509
Neha Gandhi, Himanshu Sharma, Anu G Aggarwal and Abhishek Tandon

78. Water Quality Monitoring using Data Mining Techniques 510-520
Mitali Kathpal and Kriti Saroha

79. Classification of Super Market Dataset using Mobile Devices 521-525
Shelke R R, Dharaskar R V and Thakare V M

80. Road Accidents Analysis using Data Mining 526-531
Nidhi Kalra and Kriti Saroha

81. Reduction in THD for PV based Inverter System with PSO Technique using MATLAB/Simulation 532-539
Jayesh Ramesh Mahajan and Prashant V Thakre

82. Data Mining with Big Data using Hadoop Technology 540-548
Mamatha Balachandra and Yash Mathur

83. More Smoke More Energy- Air-O-G II: Energy from the Pollutant 549-552
Akhila V H and Anila V H

84. Optimization for Placement of FCL in Distribution System by Voltage Controlled Method 553-558
Sridhar P, Naga Smitha V and Singh B P

85. Control Schemes for a Cascaded H-Bridge STATCOM 559-564
Srikanth S, Sathish Kumar A and Sridhar P

86. Removal of JPEG Compression Blocking Artifacts using Artificial Neural Networks 565-569
Anagha R, Chandralekha Singasani, Hamsa J, Kavya B and Namratha M

87. On Some New Classes of Ideal Convergent Triple Sequences of Fuzzy Numbers Associated with Multiplier Sequences 570-579
Munmun Nath and Santanu Roy

88. Determination of Temperature Rise in a Dry Type Transformer using Finite Element Analysis 580-588
Chitaliya G H and Joshi S K

89. A Critical Review of Road Failures due to Major Earthquakes in Asian Continent 589-592
Arijit Kumar Banerji, Pijush Topdar and Aloke K Datta

90. Investigation of Progressive Collapse of Cooling Towers 593-596
Amin Havaran and Mussa Mahmoudi

91. Preventive Maintenance of ABB Robot through Optimized Program Codes 597-600
Prabhaharan T and Saravanan B
